

Nia Haworth

12+ Weeks

Traditional task chairs contrast the increasingly residential-themed workplace aesthetic. Nia with its slim upholstered profile and concealed mechanisms finally creates a chair that compliments this aesthetic without compromising performance.

Specifications

Product Height 440 | 560 mm

Product Width TBC mm

Product Designer Haworth Design Studio & brodbeck design

Product Depth TBC mm

Made In Australia

Features

The world of work is constantly changing Office spaces have become more and more versatile to accommodate different tasks and behaviours of changing workforces.

Agile workers don't want to spend time adjusting the task chair they only spend a few hours in.

With this addition, the NIA chair is positioned among the task chairs.

Flexible working practices have increased the number and variety of non-assigned workspaces and added complexity to workspace design.

The ideal work environment for tomorrow's knowledge worker provides support where it's needed and freedom where it's wanted.
