

Foli Acoustic Light Round

Acustico Lighting

6-8 weeks

CUA Approved ●

FOLI Acoustic Light offers an aesthetic solution to noise problems in reverberant spaces. Measuring over 1m in diameter, this suspended circular light presides over a space reducing reverb by up to 30% in the mid-frequency range (allowing for greater speech intelligibility) Elegantly designed with 70's-inspired geometric lines and a soft, plump underside, the super-sized surface area of acoustic foam works by absorbing sound waves from all angles.

Specifications

Product Height 40 mm

Product Width 1010 mm

Product Depth 1010 mm

Made In Australia
