

Silo Table Lamp Fluxwood

6-8 weeks

The Silo sconce's smooth undulating form is a contemporary design born from collaboration with Rainestone Ceramics, a local ceramics studio on the Gold Coast, QLD. As a complimentary variation the design is explored in a smaller timber body alongside the larger Silo Ceramic Wall Sconce. The rippled form and glass sphere casts a soft diffused glow, providing a gentle and glare free light source perfect for residential and commercial interiors.

Specifications

Product Height 200 mm

Product Width 200 mm

Colour Temperature 3000K

Product Depth 95 mm

Made In Australia

Features

fitted with a 3-pin plug pack and in-line cord switch.

LED Colour Temperature: 2700K or 3000K

Warranty

3 years
