

Array Dining SBW

6-8 weeks

Taking three elements and multiplying one around a 360-degree axis, Array is a balance between simplicity and complication through repetition. An exercise on how to weld each component inconspicuously, the base looks as if it comes together unaided. The Array range consists of a side table, coffee table and dining table, low stool and barstool (counter and bar height). Available in a wide range of powder coat colours and upholstery options.

Specifications
