

## SCENE Bench system 740 +Halle

16+ Weeks

The Scene collection is furniture that adapts to its environment, creating seamless transitions between hard and soft public spaces. Developed by London-based design studio Industrial Facility in response to the Annual Briefing on 'defining', Scene offers new ways for us to focus or unwind. The modular bench units come with a variety of backrests, offering people either a space to be private, a comfy place to meet, or a semi-private moment to watch the world go by.

### Specifications
