Donut

Klaro Industrial Design

6-8 weeks

Time and time again we came across a requirement for a table power box to be installed on a small disc base table, where the final result leaves much room for improvement, as floor services access boxes and floor gnomes are not compatible with conventional disc style table bases. The DONUT table is a perfect example of a "form follows function" statement by architect Louis H Sullivan We have transformed versatile steel sheet material into organic shapes inspired by gooey and drippy doughnuts.

Specifications

Product Height 725 mm

Product Depth 1100 mm

Product Width 925 mm

Made In Australia

Features
