LEGLESS

Josh Carmody

8-12 Weeks

The seemingly impossible form of LeglessTM started as a sketch, developed into an exploration in joinery capabilities. Utilisation of only woodworking joints and glue to support the weight of the use, saw Legless become an award winning piece of design, recognisable around the globe.

Specifications

Product Height 435 mm

Product Depth 380 mm

Product Width 380 mm

Made In Australia
