

Villa Colos

12+ Weeks

Inspired by the outdoor seating in natural cane typical of Parisian terraces, Villa reinterprets the assembly method of the structural components with the aim of composing single parts to achieve an effective structural rigidity. Through a subtle play of curves and connections, the shell is slightly raised laterally from the legs, thus making the chair easy to move and manage.

Specifications

Product Height 786 mm

Product Width 496 / 541 mm

Product Designer Jun Yasumoto

Product Depth 518 mm
