

Blade

True Design

8-12 Weeks

Blade is a family of tables that is available in a range of models and sizes, defined by a very light appeal with a soft shape and edge. The profile looks natural, thin and sharp all at the same time creating an apparent contrast between the look of the material and its thin shape. The supporting structure in powder coated steel, generated by the very same search for lightness, is inspired by traditional operative drawing and work tables.

Specifications

Product Height Various mm

Product Width Various mm

Product Depth Various mm

Made In Australia

Features

Blade comes standard with a melamine top and square ABS edge detail

Other material options such as toughened glass in a range of colours could also be specified

To fully appreciate the detail of the shaped, profile Blade edge, you can request your top in a range of materials including American Oak veneer with shaped Birch Ply edge or painted MDF

The modern steel frame can also be finished in our standard range of powder coat options or any specified colour you choos
