

Fender Sofa

True Design

8-12 Weeks

A family of sofas and armchairs, for lounges and tables, developed around an iconic and recognizable element: the armrest. In addition to the seat, the ergonomics, the comfort, the highly distinctive element of this collection lies in a detail that becomes an object, an accessory that turns into an integral part of the whole: the place where the arm usually rests becomes an additional seat and support, a comfortable support to use the armchair in a more dynamic and informal way.
