

## ASCEND SYSTEM

Ascend is a dynamic sit and stand workstation solution for the modern workplace.

Ascend is a square or round profile system that provides a full range of height adjustment options in a system that can be configured as a single desk, L-Shape, 120 Degree or a back to back. With a height range of 580 mm to 1250mm.

Via a 4 button setting position control panel the the height range can also be locked at any desired finished height.

Ascend can be configured with a 'T' or 'C' foot to create a freestanding workstation. With telescopic support beams the Ascend workstation is suitable to a width of 1100mm to 1900mm and up to an 2400mm worktop.
