BEAU LIGHT

Designed by David Trubridge

About

Beau was developed by David Trubridge Design Studio. The gentle overlap of the individual panels invoke the ripple of waves, in keeping with the natural theme of the David Trubridge collection.

Beau offers various lighting options due to the effect finish has on the shade's light output; caramel limits the amount of light creating a moody environment, whilst the natural option glows.

Beau is a natural companion to the Hush Acoustic light. The two designs complement and echo each other in both commercial and residential settings, making them good companion pieces when continuing a narrative throughout a space.

Dimensions

Small: 600 diameter x 280H

Large: 750 diameter x 360H

Options

- Natural or Caramel
- Two sizes - small or large.

Features

- Made from bamboo plywood.
- Ships flatpacked. Assembly required.

Designed and made in New Zealand.
